The Power of Truth

VEHICLE INSTALLATION: ICV4000

OVERVIEW

The i-PRO ICV4000 Vehicle Installation Service provides your organization with project management and professional vehicle installation teams to ensure a consistent implementation across all vehicles. Our mounting solutions are designed to provide a complete mobile video solution and simplify the process for your internal team. Additionally, the recommendations from our representatives can assist your team in deploying a mobile video solution that maximizes the functional requirements in your organization's vehicles.

SERVICE BENEFITS

- Reduce the project management and installation demands on your organization's resources during deployment
- Ensure your organization's mobile video solution enhances your users' mobile computing solution
- Optimize operational efficiency for the user in the vehicle environment

SERVICE DESCRIPTION

This service provides your organization with the support needed to make your ICV4000 deployment successful. In order to provide your organization with the best solution for installing ICV4000 system in your vehicles, a variety of logistical issues need to be considered. Some of these key considerations are:

- Ease of use, Visibility, Safety, Fit, Comfort, Preference

Typically, the components required to mount an ICV4000 system in a vehicle include:

- Camera mount, VPU and microphone mounting
- Parts needed to connect to a new or pre-existing computer mount

When your organization selects this service, i-PRO's project managers will design a complete mobile video solution for you. A list of your requirements will be requested by i-PRO to enable our project managers and installers to make the best recommendations for your organization's implementation. i-PRO will then provide your organization with a complete statement of work that outlines the entire ICV4000 installation process and a list of all i-PRO-tested equipment needed for your installation. When our installers are finished, your organization will be provided with a report detailing all warranty information on all equipment used in the installation of your ICV4000 system.
