

i-PRO'S REMOTE GUARD

Powered by Centralized Vision

PROTECT YOUR PROPERTY WITH CENTRALIZED SURVEILLANCE

Panasonic i-PRO, a global leader of advanced sensing technologies, and Centralized Vision, an industry leader in property and asset protection through centralized surveillance, have come together to offer *i-PRO's Remote Guard powered by Centralized Vision*.

With crime increasing and budgets decreasing, *Remote Guard* allows businesses to monitor their property 24/7 with highly trained security professionals. However, unlike traditional security guard services, *Remote Guard* lowers the cost by remotely monitoring properties. Instead of paying for multiple guards to patrol multiple locations, the *Remote Guard* team monitors all of them from one centralized location.

Remote Guard combines i-PRO's best-in-class imaging solutions and video platforms with Centralized Vision's cutting-edge live safety and security monitoring. From residential to retail, dealerships to industrial, and medical to schools, i-PRO's *Remote Guard powered by Centralized Vision* has every business covered!

KEY FEATURES:

- 24/7 Live Remote Pro-active Monitoring
- Virtual Greeter / Concierge Services
- Cameras AI Engine Provide Built-in Video Analytics for Intrusion Detection
- Audio System for "Voice Down" – Notifies Trespassers that the Property is Being Monitored
- Communication and Dispatch with Local Emergency Services
- Virtual Escort & Scout Ahead
- Remote System Maintenance and Health Checks
- Burglar and Fire Alarm Visual Verification
